## Connect what you already run

| Category          | Examples                                             |
|-------------------|------------------------------------------------------|
| CRM               | Salesforce, HubSpot, Zoho, Pipedrive, Follow Up Boss |
| Support / CX      | Zendesk, Intercom, Gorgias, Freshdesk                |
| Calendar          | Google Calendar, Outlook, Calendly, Cal.com          |
| Telephony / CCaaS | Twilio, Plivo, NICE, number provisioning             |
| Messaging         | SMS, WhatsApp, Email, Telegram follow-ups            |
| Payments          | Razorpay, Stripe                                     |

## Vertical systems, too

- Healthcare — Athenahealth, Epic, DrChrono · Legal — Clio, MyCase, PracticePanther.
- Home services — ServiceTitan, Housecall Pro, Jobber · Retail — Shopify, Klaviyo.
- Recruiting — Greenhouse, Lever, Workday · Solar — Aurora Solar, OpenSolar.

## Anything else

Custom REST APIs, webhooks, and mid-call function calling mean Finn reads and writes to whatever runs your business — the agent never says “one moment please.”
