Meet Nora — Patient Screening

Meet Nora, an AI assistant for clinical pre-screening. Nora gathers symptom and eligibility details before patients meet a clinician.

Coverage

What it does

- Symptom check
- Eligibility screen
- Risk flagging
- Triage handoff

Why Finn runs it

A grounded, sub-500ms voice agent with warm human handoff on intent. Every call is recorded, transcribed, and written back to your stack. SOC 2 Type II, HIPAA, GDPR, ISO 27001 — and you pay per minute of conversation, not per seat.

Works with your stack

Athenahealth, Epic, Calendly, DrChrono.
