What's new in Voice 2.0

- Ultra-realistic voices — 100+ human-like models with expressive tone, emotion, and nuance.
- Multilingual mastery — switch language mid-call; same persona across Hindi, English, Tamil, Spanish, and more.
- Context-aware dialogue — expressive voice output fused with Finn's conversation engine.
- Branded voice — adjust pronunciation, pitch, and delivery; clone your brand voice in under a minute.
- Real-time speech — interrupt handling, silence detection, and voicemail discrimination in ~1.2s.

Why ElevenLabs

Powered by the global leader in AI voice synthesis: emotion-aware voices that feel truly conversational, aligned to your brand tone, with native accents and localized expression — bridging the gap between automation and empathy.
